

The SALMO TREK

REGISTRATION PROCEDURE ON THE MY FFPS APP

 Both competitors must hold a fishing licence. The Salmo Trek is an official FFPS competition. Participants must have a licence for the current year (see details below). The licence also allows you to be insured. A certificate of fitness to practice the sport is compulsory. A model is available in the documents on the site.

 First of all, both competitors must download My FFPS (from the Apple Store or Play Store) :

- open an account on this application,
- Select the Salmo Trek competition
- click on the green "register" button.
- combine the two competitors to form your team
- accept the principle and validate

Then a message appears: "Well done etc... Your registration will be validated as soon as we receive your payment".

 Then, one of the two team members must click on the button (blue rectangle) to access the online payment platform. Proceed with payment for the team, making sure you have all the information you will be asked to provide: Email address, phone number, and download a licence if you already have one.

All the fields on the form must be completed in order to pay. If you are ordering an event licence, you must click on the "yes" button. The medical certificate will be requested at the event reception desk on the day of the competition. Without this medical certificate, you will not be able to take part.

 Your registration will only be validated if you have followed this procedure.
